“**Carline** after much negotiation has been appointed the naming rights sponsor for the National Super Sedan Series (NSSS) for the 2007 Summer Series and beyond. We urge all readers of Tek Torque to get behind and support this sponsor and their initiatives.”

Please see page 4 for the ****CARLINE SPECIAL DISCOUNT OFFER****

STREET STOCK & PRODUCTION SPECIFICATION MANUALS

The Street Stock & Production Specification Manuals in draft form, have been posted on www.speedwaysedans.com website.

CLARIFICATIONS FOR ALL SECTIONS

- All open faced helmets are not allowed in Sedan racing.
- **Use of Cooling Systems** for fuel is **not allowed**.
- (except Super Sedans) Fibreglass exact copy of O.E.M. front and rear bumper allowed to replace plastic bumper cover.
- **SEDAN SEATS** – United Speedway accessories seat as submitted is suitable for sedans. Brat pack seat also allowed in sedans.
- **Transponder mountings** – **Timing Transponders are to be mounted** no more than 150 mm forward of the front axle centre line
- **Cheaper registration after reshelling is now available.**
Reshelling during season means same Make and Model car that is currently registered.

CLARIFICATIONS FOR ALL MONO CARS

- Strut brace between shock towers allowed.

CLARIFICATIONS FOR JUNIOR SEDANS

- **Daihatsu Charade rear wheel arch** may be cut away to a maximum 50 mm clearance around tyre and panels welded to rejoin inner and outer panels. Rear arch to be covered by fibreglass copy of original.
- Car constructors are reminded that the exhaust flange must remain standard.

IMMEDIATE IMPLEMENTATION

- **If resilient engine mountings are used**, a wire cable or chain restraint must be fitted.

CLARIFICATIONS FOR MODIFIED PRODUCTION

- **Shock absorbers/struts/inserts.** No external reservoir/canister. No cabin adjustment of shocks allowed.
- **Fly by wire throttle system** may be replaced by cable system
- **Front Mounting:** Cars fitted with McPherson/Chapman Strut suspension or OEM Coil/Shock Absorber combination (where shock absorber fits through centre of coil spring) the following procedure will apply;
 1. A weight jacking system may be fitted
 2. The strut tube or shock absorber tube may be threaded or have a threaded sleeve fitted over the outside of strut tube or shock absorber
 3. A cap to centralize coil spring may be fitted to strut/shock absorber shaft

CLARIFICATIONS FOR MODIFIED PRODUCTION Cont....

4. Must be mounted in original position
- **Rear Coil Over Fitment**
 1. Coil over unit may be used as an option and be mounted in original shock absorber position.
 2. Top and bottom mounting may be moved a maximum 25mm in any direction

CLARIFICATIONS FOR STREET STOCKS

- **Engine monitoring relay** - is a system to stop fuel pump when engine stops.

IMMEDIATE IMPLEMENTATION:

- **All header tanks, hoses and caps in cabin area to be covered** as per radiator tanks and hoses to prevent hot water burning the driver or drivers of other cars. These must be mounted below half cabin window height.
- Petroleum, no additives maximum specific gravity .780, maximum octane 98. **Must be supplied by a commercial outlet, through a multi volume network via bowser pump by Shell, Caltex, Mobil or BP only.** Fuel may be tested by any means available.

CHANGES FROM THE LAST TWO TECHNICAL CONFERENCES FOR THE DRAFT ONLY OF THE NEW SPECIFICATION MANUAL DUE FOR RELEASE 1ST JULY 2008.

- **Rims** – Maximum size be 15 x 6 ½ “. So all cars may use 14” or 15” for example.
- **Front towers** maybe braced with one bar each side from lower windscreen bar to tower. **Strut brace** between towers permitted.
- The use of **valve spring dampers** permitted.
- The use of **solid lifters** permitted.
- Front and rear bumpers may **attach to the roll cage** (one bar per side maximum 38mm x 3mm CHS). If this option is used roll cage rear brace bar may attach to this CHS.
- **Independent Rear Suspension** permitted if option for model.

The Speedway Sedans Australia Technical committee is currently researching an alternative computer for the late model EFI cars.

Note: the above six points are for the draft only and will not be implemented until 1st July 2008 if passed.

Technical Members responsible for SSA classes are:-

Super Sedans	Bill Peall & Des Alfirevich
Modified Sedans	Norman Fisher & Tony O'Neill
Production Sedans	Dave Helyar & Peter Harris
Street Stock	Peter Harris & Dave Helyar
Junior Sedans	Peter Theyer & Harold Burgess

APPAREL SAFETY STANDARDS

As of **1st July 2008** minimum safety standards for apparel will become compulsory. All details can be found in the Australian Speedway Racing Rules and Regulations on pages 51 & 52 and also on www.nasr.com.au

Finally we would like to wish you all a fantastic Speedway Season and a very Happy Christmas and New Year.
